

This speaker is perfect for situations where a wide frequency range is required. It features a rounded shape with RS PRO flange, a cone and gasket making it ideal for applications where there is a possibility of water.

A square flange around the speaker incorporates four fixing holes.

OTHER TECHNICAL DATA

I/O PORTS

Direct Importer: Grupo EOS Ibérica SA
PET (polyethylene terephthalate) cone
Controller size: 8cm
Length: 50mm
Width: 50mm
Rated power: 1W
Output impedance: 8Ω
Driver shape: round

The product is designed to operate effectively over a wide range of frequencies. It has a power rating of 1W and impedance of 8Ω to provide a uniform sound when used.

It can be used in indoor or outdoor PA systems.

The speaker driver consists of a plastic resin (PET) cone and gasket fixed to a square metal flange. The PET material is not only weather resistant, but durable and suitable for use in a wide range of applications.
