

eKM400 BRA

VANDAL-PROOF KEYBOARD

Serie Keyboard

Metal keyboard with trackball and Braille keys

Industrial Components

Polished steel industrial keypad with IP65/IP68 for front mounting (top to bottom) with 69 keys marked with **Braille** reading system.

Keypad model prepared for use by blind people.

Weatherproof keypads with vandal resistant protection specially designed for extreme conditions; water, dirt, corrosion, without detracting from functionality, with IP68 Dynamic TrackBall option.

TECHNICAL SPECIFICATIONS

La resolución o DPI es el estándar que se utiliza para medir la sensibilidad del mouse, y se expresa como el número de ppp (puntos por pulgada) que puede detectar un dispositivo. Al cambiar la resolución, puede ajustar al momento la velocidad del puntero para así poder realizar tareas que requieran precisión, como la selección de objetivos durante el juego o la edición de fotos. Cuanto mayor sea el número de ppp, mayor será la sensibilidad del mouse y mayor será la velocidad del puntero.

Voltaje de fuente: +5V C.C. +5%

Temperatura de funcionamiento: - 20oC a +60oC

Temperatura de almacenaje: -30oC a +70oC

Derecho del funcionamiento: 30-90%

Presión atmosférica: 60-106Kpa.

Niebla salina: 96 horas, IEC 60512-6

Prueba de calor húmeda en + 40oC: 21 días, IEC 60512-6.

Prueba de calor seca en + 85oC: 10 días, IEC 60512-6

OTHER TECHNICAL DATA

IP65/IP68 waterproof front panel, aluminium back plate with threaded bolts for easy mounting to a panel or enclosure. Durable keys with laser engraved legends and long travel and anti-torsion technology will generate a good feel and facilitate fast data entry.

DIMENSIONS: 400,0mm x 124,0mm (front panel)

To protect the system from unwanted access, this keypad is prepared: **WITHOUT FUNCTION KEYS /WITHOUT ALT or CTRL KEYS**

Versions for this keypad:

A400OTBKP: IP68 protection with 38mm optical trackball mouse and 800 dpi resolution.

A400TPKP: Keyboard with touchpad option.

Certificates: RoHS Compliant, CE and FCC, ESD. Protection level: IP65(front panel). Vandal resistance: IK09.

Keypad life >10 million keystrokes. MTBF >50000H . MTTR <30min
